Objective

To gain employment in the web design industry and contribute my skills to a productive team of people.

Skills

Coding skills: HTML, CSS (+Sass), Javascript, jQuery, AJAX, Git.

Design Foundations: Photoshop, Illustrator, UI, UX, Content Strategy.

I'm an excellent learner and adapter, solution oriented, and a team player

Education

The Iron Yard   Fall 2014

3 month long intensive code school for web design. Learned HTML, CSS, Interaction-based Javascript, Photoshop, Illustrator, and many design principles

North Greenville University   2010–2011

Business Administration major. Relevant classes include Administration, Accounting, and Intro to Computer Science

Experience

Worship Team – NewSpring Church   August 2013–Present

Play bass and guitar for Sunday and Wednesday services, as well as volunteer as a leader in the student ministry. There is a high expectation for excellence as it is a large church with a top-notch music program

Sales Associate – Verizon Wireless   July 2013–August 2014

Sold Verizon Wireless products and services in a highly-competitive commision-based atmosphere. Performed outbound calls and marketing strategies to drive business. Scheduled shifts and meetings for the store's employees

Wisdom Selling - Consultant   September 2011–July 2013

Assisted in a family startup by performing tasks such as sales, research, data entry, building the company's website, and maintaining various social media. Learned many workflow and communication skills.
